

Caregiver Support Group

Join our oncology social workers for a supportive and informational meeting

When a loved one is living with cancer, the role of a caregiver can be both challenging and rewarding.

Caregivers are invited to join us for four online sessions on how to manage the emotional and physical demands of being a caregiver. We will provide practical information on ways to support loved ones while practicing self-care. Participants will be encouraged to share their experiences with one another to gain insight and support in the role of caregiver.
