

The 2022 Navigating Care Portal Upgrade Health Records

The Health Records section within the NavigatingCare™ patient portal allows you to view all pertinent health information from vitals, test results, medications and more.

The **Health Records** section allows you to review your health information

Review your health information

View your latest **Test Results**

Track the **Vitals** taken at your clinic visit on an easy-to-read table

Medications now appear in chronological order for easy reading

Click to view clinic reported **Allergies**

Quickly locate documents relevant to your care

Review any **Immunization** records reported to your clinic

View, download, or share

Tap **View, download, or share** to view or securely share a PDF of your health records with healthcare providers and trusted friends and family

The screenshot shows the 'Health Records' section of the NavigatingCare app. At the top, there is a navigation bar with icons for Home, Messages, Health Records (selected), Education, Calendar, Journal, and More. Below the navigation bar, the 'Health Records' title is displayed. A list of health record categories is shown, each with a right-pointing arrow: Test Results, Vitals, Medications & Allergies, Health Documents, Clinical Notes, Health Concerns & Diagnoses, Assessments & Treatment Plans, Goals, Procedures & Immunizations, and Care Team & Patient Information. At the bottom of the list is a button labeled 'View, download, or share'. Red lines connect callout boxes on the left to specific features in the interface: 'View your latest Test Results' points to the 'Test Results' header; 'Track the Vitals...' points to the 'Vitals' item; 'Medications now appear...' points to the 'Medications & Allergies' item; 'Click to view clinic reported Allergies' points to the 'Allergies' icon on the 'Medications & Allergies' item; 'Quickly locate documents...' points to the 'Health Documents' item; 'Review any Immunization records...' points to the 'Procedures & Immunizations' item; and 'Tap View, download, or share...' points to the button at the bottom.
